

EXPERT CLINICAL EVALUATION OF BORDERLINE PERSONALITY DISORDER

A Rare Opportunity To View Master Clinicians At Work.

Salman Akhtar. Lorna Smith Benjamin. Arthur Freeman.
Otto Kernberg. Marsha Linehan. Lawrence Rockland. Michael Stone.

This set of seven DVDs is a excellent teaching aid to demonstrate assessment approaches from different modalities.

Each DVD depicts a complete, unedited initial interview with a man suffering from a severe personality disorder. Leading contemporary clinicians, representing major frames of reference, conduct these interviews utilizing cognitive-behavioral, interpersonal, transference-focused, dialectical behavioral, supportive and integrated psychodynamic psychotherapy. You will see first hand how different schools apply different strategies and techniques in their approach to the same patient.

DISTRIBUTION OF THE SYMFORA TAPES IN THE U.S. IS MADE POSSIBLE BY:
